Medical devices not listed above

Exporter Guidance: For most medical devices that have an electronic component, OFAC requires a Commodity Classification (CCAT) from BIS. For purposes of the EAR, medical devices are "devices" as defined in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) including medical supplies, instruments, equipment, equipped ambulances, institutional washing machines for sterilization, and vehicles with medical testing equipment. When submitting a CCAT, include the model name and number, and please reference any former CCATs by the G#. Please note that only six items can be listed on each CCAT. Instructions for applying for a CCAT can be found at www.bis.gov.doc
